Beskrivelse

1-greps servantkran med oppløftsventil

Monteringsveiledning

Designer: Antonio Cittero

"Above all, I am an architect", says Antonio Citterio. Also in his work as a designer, he makes the room the focus of his creative activity. In a virtuoso way, he crosses the boundaries between the form and function of an object and strikes a harmonious chord between tradition and innovation. With the Axor Citterio Collection he has re-defined the bathroom. An architect above all? Certainly, but with many years of experience in product design!
